

WIRELESS FREEDOM

By utilizing ZigBee Wireless Technology, the R-4 communicates on a reliable wireless mesh network, and can control an unlimited number of devices throughout a home or building. The R-4 instantly powers on when picked up, enables two-way communication with the system, and can roam seamlessly between the NetLinx ZigBee Gateway and Repeaters.

R-4

ZigBee (Two-Way)
w/ LCD Touch Screen

one + one R-4

the new R-4 is a handheld remote and touch panel in one.

Enjoy the powerful features of a touch panel in an easy-to-handle remote control. Controlling home theaters, distributed audio, lighting, HVAC, shades and more has never been easier.

LET THE R-SERIES TAKE CARE OF IT ALL

- Dim your Lights
- Adjust your Heating and Cooling
- Select a Movie to Watch
- Search a Personal Music Playlist
- Raise your Pool Temperature
- Turn on your Sprinklers
